

IEEE/ION PLANS 2006

TABLE OF CONTENTS

Session A1: Advanced Inertial Sensing Technology

Estimation of the Roll Angle in a Spinning Guided Munition Shell

R. Kreichauf, E. Lindquist , *Honeywell Laboratories* ----- 1

A New Quartz Monolithic Differential Vibrating Beam Accelerometer

O. Le Traon, D. Janiaud, M. Pernice, S. Masson, S. Muller, *Onera, France*;
J-Y. Tridera, *DGA/LRBA, France* ----- 6

Performance Analysis of Tactical Grade Inertial Systems for MWD Process

M. El-Gizawy, *The University of Calgary, Canada*; A. Noureldin, *Royal Military College of Canada*;
N. El-Sheimy, *The University of Calgary, Canada* ----- 16

Current Capabilities of MEMS Capacitive Accelerometers in Harsh Environment

J-M. Stauffer, *Colibrys SA, Switzerland* ----- 23

Quartz Dual Axis Rate Sensor (QDARS)

R. Jaffe, S. Simshauser, *BEI Systron Donner Inertial Division*; A.M. Madni, *BEI Technologies, Inc.* --- 26

Ship Augmented Gravity Enhancement (SAGE)

J. DeWall, M.B. May, J. Eyth, *Pennsylvania State University*----- 36

Session B1: Advanced Integrated Navigation Technology

Analysis of an Ultra Tightly Coupled GPS/INS System in Jamming

E.J. Ohlmeyer, *Naval Surface Warfare Center*----- 44

Time-Differenced Carrier Phase Measurements for Tightly Coupled GPS/INS Integration

J. Wendel, O. Meister, R. Mönikes, G.F. Trommer, *University of Karlsruhe, Germany* ----- 54

A Development of WAAS-Aided Flight Inspection Truth System

E. Kim, U. Peled, T. Walter, J.D. Powell, *Stanford University*----- 61

Spacecraft Entry Navigation Using Sigma Point Kalman Filtering

M.C. Heyne, R.H. Bishop, *The University of Texas at Austin*----- 71

IMU Data Generation From the Defined Motion Using the NDI Controller Design Technique	80
Ö. Atesoglu, Aselsan, Inc., Turkey -----	
SINS Rapid In-Motion Alignment Based on Nonlinear Filter	86
Z. Xiong, Y. Hao, F. Sun, Harbin Engineering University, China -----	
Session C1: Atmospheric Effects & Modeling	
Decorrelation of Troposphere Across Short Baselines	94
D. Lawrence, Novariant Corporation; R.B. Langley, D. Kim, University of New Brunswick, Canada; F-C. Chan, B. Pervan, Illinois Institute of Technology, Chicago -----	
An Improved Regularization Method to Estimate Near Real-time Systematical Errors and Ionosphere Suitable for GPS Medium-long Baselines	103
X. Luo, Y. Yuan, J. Ou, Chinese Academy of Science, China; J. Wang, University of New South Wales, Australia; K. Zhang, Chinese Academy of Science, China -----	
Advanced Ionospheric Modelling for GNSS Single Frequency Users	110
M.A. Aragón, A.F. Amarillo Fernández, TEC-ETN, ESTEC/ESA, The Netherlands -----	
Improving Ionospheric Corrections in the Asia Pacific Region	121
C-S. Ho, S-S. Jan, Y-C. Lin, National Cheng Kung University, Taiwan -----	
Session D1: Advanced Navigation Concepts for Urban & Indoor	
Optimal Sensor Placement for Agent Localization	128
D.B. Jourdan, N. Roy, Massachusetts Institute of Technology -----	
Data Fusion for Mobile-Aided Localization in 4G Wireless Communication Systems	140
S. Frattasi, Aalborg University, Denmark; M. Monti, Konica srl, Italy; M. Antonini, M. Ruggieri, "Tor Vergata", University, Italy; R. Prasad, Aalborg University, Denmark -----	
Integrated GPS/TOA Navigation Using a Positioning and Communication Software Defined Radio	147
A. Brown, J. Nordlie, NAVSYS Corporation -----	
Indoor Mapping and Positioning Using Impulse Radios	153
W. Guo, N.P. Filer, The University of Manchester, U.K.; R. Zetik, Ilmenau University of Technology, Germany -----	
Initialization and Online-Learning of RSS Maps for Indoor / Campus Localization	164
B.B. Parodi, H. Lenz, A. Szabo, H. Wang, Siemens AG, Corporate Technology, Germany; J. Horn, Helmut-Schmidt University/University of the Federal Armed Forces, Germany; J. Bamberger, D. Obradovic, Siemens AG Corporate Technology, Germany -----	
A Database Method to Mitigate the NLOS Error in Mobile Phone Positioning	173
B. Li, A.G. Dempster, C. Rizos, University of New South Wales, Australia; H.K. Lee, Hankuk Aviation University, Korea -----	
Self Localization Techniques for Wireless Sensor Networks	179
M. Youssef, The University of Calgary, Canada; A. Nouredin, Royal Military College of Canada; A.F. Yousif, N. El-Sheimy, The University of Calgary, Canada -----	

Session A2: Sensor Software & Signal Processing

Symmetric Phase-Only Matched Filter (SPOMF) for Frequency-Domain Software

GNSS Receivers

M. Miller T. Nguyen, *Air Force Research Laboratory/SNRN*; C. Yang, *Sigtem Technology, Inc.* -----187

Analysis and Practical Comparison of Wireless LAN and Ultra-Wideband Technologies for Advanced Localization

S. Galler, J. Schroeder, G. Rahmatollahi, *University of Hannover, Germany*; K. Kyamakya, *University of Klagenfurt, Austria*; K. Jobmann, *University of Hannover, Germany*-----198

Kalman Filtering for Acquisition of GNSS Signals in Highly-Manoeuvrable Receivers

F.D. Nunes, F.M. Sousa, J.M. Leitão, *Instituto de Telecomunicações, Portugal*-----204

Insights Into Jammer Mitigation Via Space-Time Adaptive Processing

K.F. McDonald, P.J. Costa, R.L. Fante, *The MITRE Corporation*-----213

A Data Fusion Approach for Improved Positioning in GSM Networks

M. Zhang, S. Knedlik, P. Ubolkosold, O. Loffeld, *University of Siegen, Germany* -----218

A Multi-Objective Approach in GNSS Code Discriminator Design

J-C. Juang, *National Cheng Kung University, Taiwan*-----223

A Constructive and Autonomous Integration Scheme of Low-Cost GPS/MEMS IMU for Land Vehicular Navigation Applications

K-W. Chiang, *National Cheng-Kung University, Taiwan*; S. Nassar, N. El-Sheimy, *The University of Calgary, Canada*-----235

Session B2: Integration of Inertial Systems with Satellite

Performance of Honeywell's Inertial/GPS Hybrid (HIGH) for RNP Operations

C. Call, M. Ibis, J. McDonald, K. Vanderwerf, *Honeywell International, Aerospace* -----244

TARSUS - A New Generation State of the Art Tactical Artillery Survey and Gun Laying System

M. Eren, Ö. Atesoglu, D.R.L. Guner, *ASELSAN Inc., Turkey*-----256

Architecture and System Performance of SPAN - NovAtel's GPS/INS Solution

S. Kennedy, J. Hamilton, H. Martell, *NovAtel Inc., Canada* -----266

A Systems Approach to Ionospheric Delay Compensation

D.P. Michal, H.A. Klotz, R.M. Hoven, *The Boeing Company*-----275

Post-processing GNSS/INS Measurements Using a Tightly Coupled Fixed-Interval Smoother Performing Carrier Phase Ambiguity Resolution

R. Mönikes, A. Teltschik, J. Wendel, G.F. Trommer, *University of Karlsruhe, Germany*-----283

System Design and Performance Analysis of Extended Kalman Filter-Based Ultra-Tight GPS/INS Integration

D. Li, J. Wang, *The University of New South Wales, Australia* -----291

A Deeply Coupled GPS/INS Integrated Kalman Filter Design Using a Linearized Correlator Output	
J.W. Kim, D-H. Hwang, S.J. Lee, <i>Chungnam National University, South Korea</i> -----	300

Session C2: Receiver and Antenna Technology I

Radiation Pattern Analysis of Aircraft Mounted GPS Antennas and Verification Through Scale Model Testing	
B.R. Rao, E.N. Rosario, R.J. Davis, <i>The MITRE Corporation</i> -----	306

Stabilizing the Phase Response of Blind Array Processors for GNSS Interference Cancellation	
G. Carrie, F. Vincent, <i>ENSICA, France</i> ; T. Deloues, <i>Onera/DEMR, France</i> ; D. Pietin, <i>DGA/LRBA, France</i> ; A. Renard, F. Letestu, <i>Thales, France</i> -----	319

Phase Compensation in GPS Array Processing Using a Software Radio	
S.K. Kalyanaraman, M.S. Braasch, <i>Ohio University</i> -----	324

Empirical Mode Decomposition and Blind Source Separation Methods for Antijamming with GPS Signals	
V. Kamath, Y-C. Lai, <i>Arizona State University</i> ; L. Zhu, <i>Beijing Jiaotong University, China</i> ; S. Urval, <i>Qualcomm Inc.</i> -----	335

An Enhanced Correlation Processing Multipath Mitigation Technique for BOC Signals	
V. Heiries, <i>ENSAE (Supaero), France</i> ; D. Roviras, <i>Enseeiht/IRIT, France</i> ; V. Calmettes, <i>ENSAE (Supaero), France</i> ; L. Ries, <i>CNES, France</i> -----	342

Strobe Pulse Design for Multipath Mitigation in BOC GNSS Receivers	
F.M. Sousa, F.D. Nunes, J.M. Leitão, <i>Instituto de Telecomunicações, Portugal</i> -----	348

Session D2: Navigation Technologies Applied to DARPA Grand Challenge

Managing Complexity in an Autonomous Vehicle	
J.C. Bebel, B.L. Raskob, A.C. Parker, <i>University of Southern California</i> ; D.J. Bebel, <i>Northrop Grumman Corporation</i> -----	356

Autonomous off-road Driving in the DARPA Grand Challenge	
E. Jones, B. Fulkerson, E. Frazzoli, H. Samuelli, <i>University of California, Los Angeles</i> ; D. Kumar, R. Walters, J. Radford, R. Mason, <i>The Golem Group</i> -----	366

Utilization of Position and Orientation Data for Preplanning and Real Time Autonomous Vehicle Navigation	
W. Whittaker, <i>Carnegie Mellon University</i> ; L. Nastro, <i>Applanix Corporation</i> -----	372

Kat-5: Systems Based on a Successful Paradigm for the Development of Autonomous Ground Vehicles	
P.M. Kinney, M. Dooner, J. Nagel, <i>Tulane University</i> ; P.G. Trepagnier, <i>The Gray Insurance Company</i> -----	378

Session A3: Inertial Measurement Unit Technology

Northrop Grumman's Family of Fiber-Optic Based Inertial Navigation Systems	
C. Volk, J. Lincoln, D. Tazartes, <i>Northrop Grumman, Navigation Systems Division</i> -----	382

Advances in Ruggedized Quartz MEMS Inertial Measurements Units	
R. Jaffe, <i>BEI Systron Donner Inertial Division</i> ; T. Aston, A.M. Madni, <i>BEI Technologies, Inc.</i>	-----390
Designing Vibration and Shock Isolation Systems for Micro Electrical Machined Based Inertial Measurement Units	
T. Braman, O. Grossman, <i>Honeywell Int.</i>	-----400
Test and Evaluation of High Performance Micro Electro-mechanical System Based Inertial Measurement Units	
S.J. Pethel, <i>Navigation Technology Associates, Inc.</i>	-----405
A Method for Multiple Fault Detection and Isolation of Redundant Inertial Navigation Sensor Configurations	
D. Skoogh, A. Lennartsson, <i>Swedish Defense Research Agency, Sweden</i>	-----415
Session B3: Integrated Navigation for Precision & Non-precision Landing Approaches	
Characteristics of Navigation Errors During Sikorsky Helicopter GPS/WAAS Non-precision Approaches	
D.P. Stapleton, <i>Innovative Solutions International - Mike Monroney Aeronautical Center</i>	-----426
Flight Test Evaluation of Various Terrain Referenced Navigation Techniques for Aircraft Approach Guidance	
M. Uijt de Haag, A. Vadlamani, <i>Ohio University</i>	-----440
An Integrity Monitoring Technique for Multiple Failures Detection	
I. Martini, G.W. Hein, <i>University FAF Munich, Germany</i>	-----450
WAAS-Based Threat Monitoring for a Local Airport Monitor (LAM) that Supports Category I Precision Approach	
J. Rife, S. Pullen, T. Walter, E. Phelts, <i>Stanford University</i> ; B. Pervan, <i>Illinois Institute of Technology</i> ; P. Enge, <i>Stanford University</i>	-----468
Code-Carrier Divergence Monitoring for the GPS Local Area Augmentation System	
D.V. Simili, B. Pervan, <i>Illinois Institute of Technology</i>	-----483
Session C3: Ground and Space-based Augmentation Systems	
EGNOS Performance Monitoring Using the DLR's Experimental Verification Network	
B. Belabbas, S. Graf, T. Noack, <i>German Aerospace Center, Germany</i>	-----494
Assessment of Nominal Ionosphere Spatial Decorrelation for LAAS	
J. Lee, S. Pullen, S. Datta-Barua, P. Enge, <i>Stanford University</i>	-----506
Ionospheric Information Broadcasting Methods for Standardization in SBAS L5	
R. Prieto-Cerdeira, J. Samson, <i>European Space Agency / ESTEC, The Netherlands</i> ; J. Ventura-Traveset, <i>European Space Agency, France, EGNOS Project Office, France</i> ; B. Arbesser-Rastburg, <i>European Space Agency / ESTEC, The Netherlands</i>	-----515

Availability of the EGNOS Service for a Land Mobile User
P. Kovář, L. Seidl, F. Vejražka, *Czech Technical University, Czech Republic*-----524

An Augmented GPS/EGNOS Localization System for Alpine Rescue Teams Based on a VHF Communication Infrastructure
F. Dominici, A. Defina, F. Dosis, *Politecnico di Torino, Italy*; P. Mulassano, M. Gianola, *Istituto Superiore Mario Boella, Italy*-----531

Session D3: Advanced Navigation Concepts for Urban & Indoor Navigation II

A Prototype Personal Navigation System
W. Soehren, W. Hawkinson, *Honeywell Laboratories*-----539

Location Determination in Indoor Environments for Pedestrian Navigation
G. Retscher, *Vienna University of Technology, Austria*-----547

Performance of Hybrid Positioning System Combining GPS and Television Signals
J-Y. Do, M. Rabinowitz, P. Enge, *Stanford University*-----556

Accuracy Enhancement for UWB Indoor Positioning Using Ray Tracing
Y-H. Jo, *Core Logic, Inc., South Korea*; J-Y. Lee, D-H. Ha, S-H. Kang, *Handong University, South Korea*-----565

PMD-Based Mobile Node Position Monitoring
F. Hasouneh, S. Knedlik, V. Peters, O. Loffeld, *Center for Sensor Systems, (ZESS), Germany*-----569

Session A4: MEMS Inertial Sensor Technology

Multi-Sensor Inertial Array Technologies for Advanced MicroSystems
T. Hudson, S. Holt, P. Ruffin, *U.S. Army (AMRDEC)*; J. McKee, M. Whitley, M. Kranz, *Morgan Research Corp.*; E. Tuck, *The Aegis Technologies Group*-----574

Type I and Type II - Micromachined Vibratory Gyroscopes
A.M. Shkel, *University of California – Irvine*-----586

Oscillation Loop for a Resonant Type MEMS Accelerometer and its Performance
C. Hyun, J.G. Lee, *Seoul National University, Korea*; T. Kang, *Konkuk University, Korea*-----594

Patterned Polymer Bonding With 3-D Capability for Microelectromechanical Systems (MEMS) Inertial Sensors
E.J. Tuck, G. Tuck, M. Buncick, *Aegis Technologies Group, Inc.*; T. Hudson, *U.S. Army (AMRDEC)*; T. Buckner, *Aegis Technologies Group, Inc.*-----599

Hybrid Methodology for Development of MEMS
R.J. Pryputniewicz, R.T. Marinis, A.R. Klempner, P. Hefti, *Worcester Polytechnic Institute*-----606

Session B4: Integration of Inertial Systems with Satellite Navigation Systems II

Carrier Phase Coherence as a Sequential Correlation Issue
J.L. Farrell, *VIGIL, Inc.*-----614

A GPS Aided Full Linear Accelerometer Based Gyroscope-free Navigation System	
A. Buhmann, C. Peters, M. Cornils, Y. Manoli, <i>University of Freiburg, Germany</i>	-----622
Novel Position Estimation for GPS and Low-Cost INS Fusion	
M. Uenoyama, H. Nakamura, H. Nishitani, <i>Nara Institute of Science and Technology, Japan</i>	-----630
High Latitude Trials of Modern Russian Marine Compasses	
A.G. Andreev, V.C. Ermakov, M.B. Mafter, <i>Perm Scientific-Industrial Instrument Making Co., Russia</i> ; V.I.Kokorin, <i>Krasnoyarsk State University, Russia</i> ; C.V. Rumyantsev, <i>Yamal Atomic Icebreaker, Russia</i>	-----636
Bringing RTK to Cellular Terminals Using a Low-cost Single-frequency AGPS Receiver and Inertial Sensors	
L. Wirola, K. Alanen, J. Käppi, J. Syrjärinne, <i>Nokia Technology Platforms, Finland</i>	-----645
Session C4: Infrastructure Applications of Positioning, Navigation, & Timing Technology	
The Evolution of the National Geodetic Survey's Continuously Operating Reference Station Network and Online Positioning User Service	
W. Stone, <i>NOAA - National Geodetic Survey</i>	-----653
Measurement of Backscattered GPS Signals	
T. Lindgren, <i>Luleå University of Technology, Sweden</i> ; E. Vinande, D. Akos, D. Masters, P. Axelrad, <i>University of Colorado - Boulder</i>	-----664
Application of Wavelet Analysis to GPS Deformation Monitoring	
Y. Min, <i>Jiangxi Normal University, China</i> ; H. Guo, <i>Nanchang University, China</i> ; C. Zou, <i>Jiangxi Normal University, China</i>	-----670
Session D4: Alternatives to GNSS	
Flash-LADAR Inertial Navigator Aiding	
J. Campbell, M.M. Miller, <i>AFRL/Sensors Directorate</i> ; M. Uijt de Haag, D. Venable, M. Smearcheck, <i>Ohio University</i>	-----677
Geomagnetic Navigation Beyond the Magnetic Compass	
F. Goldenberg, <i>Goodrich Corporation</i>	-----684
Possible Optimizations for the US Loran System	
G. Johnson, M. Wiggins, <i>Alion Science & Technology</i> ; P.F. Swaszek, L. Hartshorn, <i>University of Rhode Island</i> ; R. Hartnett, <i>U.S. Coast Guard Academy</i>	-----695
Ultra-Tight Integration of Pseudolites With INS	
R. Babu, J. Wang, <i>University of New South Wales, Australia</i>	-----705
A Positioning Technology for Classically Difficult GNSS Environments From Locata	
J. Barnes, C. Rizos, M. Kanli, A. Pahwa, <i>University of New South Wales / Locata Corporation Pty Ltd, Australia</i>	-----715
Sensitivity Analysis of An Integrated Vision and Inertial System	
B.K.H. Soon, S. Scheduling, <i>Australian Centre for Field Robotics, Australia</i>	-----722

A Two-Stage Fuzzy Logic Approach for Wireless LAN Indoor Positioning	
A. Teuber, B. Eissfeller, T. Pany, <i>University FAF Munich, Germany</i>	730

Session A5: Inertial Sensor Test & Evaluation

The New Calibrating Algorithm for the Low-Cost Fiber-Optics Gyroscope	
P. Guo, <i>BeiHang University, China</i> ; M. Wang, <i>Shanghai Jiaotong University, China</i> ; Z. Ren, <i>BeiHang University, China</i> ; H. Qiu, <i>Beijing YHLT Science & Technology, Inc, China</i>	739

Using A Gimbal to Calibrate Inertial Measurement Units	
G. Reddy, H. Herr, <i>Massachusetts, Institute of Technology</i>	744

A Least-Squares Normalized-Error Regression Algorithm With Application to the Allan Variance Noise Analysis Method	
B.E. Grantham, <i>U.S. Army, AMRDEC</i> ; M.A. Bailey, <i>Navigation Technology Associates, Inc.</i>	750

Characterization of Non-Linear Error Terms for Vibrating Beam Accelerometers	
R. Sutherland, L.M. Overstreet, <i>Honeywell Defense & Space</i>	757

An Efficient Method for Evaluating the Performance of MEMS IMUs	
X. Niu, C. Goodall, S. Nassar, N. El-Sheimy, <i>The University of Calgary , Canada</i>	766

Session B5: Inertial Navigation Applications for Space, Commercial, & Military Systems

A High G, MEMS Based, Deeply Integrated, INS/GPS, Guidance, Navigation and Control Flight Management Unit	
T.M. Buck, J. Wilmot, <i>Honeywell International</i> ; M.J. Cook, <i>Rockwell Collins</i>	772

Enhanced Capabilities for Legacy Missiles through Technology Insertion	
P.B. Renfro, A.M. Wright, <i>U.S. Army Research, Development & Engineering Command</i> ; T.B. Medley, <i>NTA, Inc.</i>	795

Study of Real-time Filtering for an Inertial Measurement Unit (IMU) With Magnetometer in a 155mm Projectile	
V. Fleck, E. Sommer, M. Brökelmann, <i>ISL, French-German Research Institute of Saint-Louis, France</i>	803

A Micro Air Vehicle Navigation System	
B.B. Mohr, <i>Honeywell Laboratories</i> ; D.L. Fitzpatrick, <i>Honeywell, Defense and Space</i>	808

Simplified Survey System User Trial	
G.S. Graham, P.K. Couch, <i>U.S. Army RDECOM</i> ; K.R. Peake, <i>Navigation Technology Associates, Inc.</i>	814

A Crosswind Hazard Study With Using FDR Data	
C-S. Ho, C-T. Weng, <i>National Cheng Kung University, Taiwan</i> ; M. Guan, <i>Aviation Safety Council, Taiwan</i>	818

Comparison of INS Transfer Alignments Through Observability Analysis W. Gao, Harbin Institute of Technology, China; Z. Xiong, Y. Hao, F. Sun, Harbin Engineering University, China	823
--	-----

Session C5: GPS & Galileo

Performance Analysis of GPS and Galileo Receivers in Urban Automatic Vehicle Location H. Liu, Shanghai Galileo Industries/Shanghai Institute of Microsystem and Information Technology/National University of Defense Tech., China; Q. Shi, G. Li, Shanghai Galileo Industries/Shanghai Institute of Microsystem and Information Technology, China; J. Wan, National University of Defense Tech, China	830
--	-----

Signal Performance and Measurement Noise Assessment of the First L2C Signal-in-space A. Simsky, J-M. Sleewaegen, P. Nemry, J. Van Hees, Septentrio Satellite Navigation, Belgium	834
--	-----

L1/L2CS GPS Receiver Implementation With Fast Acquisition Scheme D.W. Lim, Chungnam National University, South Korea; S.W. Moon, Navicom, South Korea; C. Park, Chungbuk National University, South Korea; S.J. Lee, Chungnam National University, South Korea	840
--	-----

Galileo L1c - Acquisition Complexity: Cross Correlation Benefits, Sensitivity Discussions on the Choice of Pure Pilot, Secondary Code, or Something Different P.G. Mattos, STMicroelectronics, U.K.	845
---	-----

Tracking Complex Modulation Waveforms - How to Avoid Receiver Bias A.R. Pratt, J.I.R. Owen, DSTL, U.K.; G.W. Hein, J.A. Avila-Rodriguez, University FAF Munich, Germany	853
---	-----

Controlling the Galileo L1 OS Signal Emissions With Satellite Baseband Filters A.R. Pratt, J.I.R. Owen, DSTL, U.K.	865
--	-----

Improved Maximum-Likelihood Time Delay Estimation for GPS Positioning in Multipath, Interference and Low SNR Environments M. Sahnoudi, M.G. Amin, Villanova University	876
--	-----

MBOC: The New Optimized Spreading Modulation Recommended for GALILEO L1 OS and GPS L1C G.W. Hein, University FAF Munich, Germany; J.W. Betz, The MITRE Corporation; J-A. Avila-Rodriguez, University FAF Munich, Germany; C.J. Hegarty, The MITRE Corporation; S. Wallner, University FAF Munich, Germany; L.S. Lenahan, GPS Joint Program Office; A.R. Pratt, Orbstar Consulting, U.K.; J.J. Rushanan, The MITRE Corporation; J.I.R. Owen, DSTL, U.K.; A.L. Kraay, The MITRE Corporation; J-L. Issler, CNES, France; T. Stansell, Stansell Consulting	883
--	-----

Session D5: Advanced Navigation Concepts for Urban & Indoor Navigation

Use of a Vector Delay Lock Loop Receiver for GNSS Signal Analysis in Bad Signal Conditions T. Pany, B. Eissfeller, University FAF Munich, Germany	893
---	-----

Innovative Indoor Geolocation Using RF Multipath Diversity D. E. Gustafson, J. M. Elwell, J. A. Soltz, Charles Stark Draper Laboratory	904
--	-----

Signal Propagation Analysis and Signature Extraction for GNSS Indoor Positioning	
M. Andreotti, M. Aquino, M. Woolfson, J. Walker, T. Moore, <i>University of Nottingham, U.K.</i>	-----913
Inertial Sensor Enhanced Mobile RTK Solution Using Low-Cost Assisted GPS Receivers and Internet-Enabled Cellular Phones	
K. Alanen, L. Wirola, J. Käppi, J. Syrjärinne, <i>Nokia Technology Platforms, Finland</i>	-----920
A Deep Integration Estimator for Urban Ground Navigation	
D. Landis, T. Thorvaldsen, B. Fink, P. Sherman, S. Holmes, <i>The Charles Stark Draper Laboratory</i>	--927
Navigation Message Bit Identification Using Coherent Code Processing	
R.K. Douglas, W.E. Lillo, <i>The Aerospace Corporation</i>	-----933
RAIM and Complementary Kalman Filtering for GNSS Reliability Enhancement	
H. Leppäkoski, <i>Tampere University of Technology, Finland</i> ; H. Kuusniemi, <i>Fastrax Ltd., Finland</i> ; J. Takala, <i>Tampere University of Technology, Finland</i>	-----948
An Anti-Jam GPS Receiver, Using Markov Chain, Monte Carlo Integration	
M.C. Bromberg, <i>Private Consultant</i> ; I.F. Progni, <i>California State Polytechnic University –Pomona</i>	---957
Session A6: Novel Applications Enabled by Emerging Sensor Technology	
Advanced Borehole Attitude Determination Without Measuring Axial Angular Rate Component	
Y.I. Binder, T.V. Paderina, Y.A. Litmanovich, <i>Central Scientific & Research Institute, Russia</i>	-----963
The Application of GPS on the Buoy Monitoring System	
J-C. Zheng, <i>Jimei University, China</i> ; Z-H. Chen, <i>Shanghai Maritime Safety Administration, China</i>	----969
Marine Mammal Marker (MAMMARK) Dead Reckoning Sensor for In-Situ Environmental Monitoring	
G.H. Elkaim, E. Decker, G. Oliver, <i>University of California - Santa Cruz</i> ; B. Wright, <i>Boulder Creek</i>	----976
Autonomous Ground Vehicle Navigation Using Integrated GPS and Laser-scanner Measurements	
M. Joerger, B. Pervan, <i>Illinois Institute of Technology</i>	-----988
Navigation Error Analysis for the Rocketplane XP	
K.M. Betts, R.C. Rutherford, <i>bd Systems, Inc.</i>	-----998
Model Free Subspace H-infinity Control for an Autonomous Catamaran	
G.H. Elkaim, <i>University of California - Santa Cruz</i> ; B.R. Woodley, <i>NeoGuide Sysetms Inc.</i> ; R. Kelbley, <i>University of California - Santa Cruz</i>	----- 1005
A Localization System Using Geostationary Colocated Satellites for Location Based Services in Interactive TV	
M. Gross, G. Harles, G. Krier, <i>SES ASTRA SA, Luxembourg</i> ; T. Nicolay, <i>Saarland University, Germany</i>	----- 1014
Session B6: Part 1: Underwater Navigation	
Simplified Target Location Estimation for Underwater Vehicles	
S.K. Rao, <i>Naval Science and Technology Laboratory, India</i>	----- 1021

Terrain Aided Underwater Navigation Using Point Mass and Particle Filters
K.B. Ånonsen, O. Hallingstad, *University Graduate Center (UniK), Norway* ----- 1027

Pseudo Linear Kalman Filter for Underwater Target Location Using Intercept Sonar Measurements
S.K. Rao, *Naval Science and Technology Laboratory, India*----- 1036

Application of Statistical Estimators for Underwater Target Tracking
S.K. Rao, *Naval Science and Technology Laboratory, India*----- 1040

Session B6: Part 2: Precision Agriculture

Agricultural 3D Maps with Stereovision
F. Rovira-Más, *Polytechnic University of Valencia, Spain*; Q. Zhang, M. Kise, *University of Illinois at Urbana-Champaign*; J.F. Reid, *John Deere Technology Center*----- 1045

Ionospheric Effects on GPS Signals in Real Time Kinematic (RTK) Applications
A. Iyiade, *Patronics International, U.K.* ----- 1054

Dynamic Testing of GPS Receivers on Agricultural Aircraft for Remote Sensing and Variable-rate Aerial Application
S.J. Thomson, L.A. Smith, *USDA, ARS, Application and Production Technology Research Unit* ---- 1067

Session C6: Receiver & Antenna Technology II

Orbiting GPS Receiver Modified to Track New L2C Signal
T.K. Meehan, D. Robison, T.N. Munson, L.E. Young, *Jet Propulsion Laboratory*; S. Stoyanov, *ITT Space Systems Division* ----- 1071

Fast Signal Acquisition Technology for New GPS/Galileo Receivers
W. De Wilde, J-M. Sleewaegen, A. Simsky, J. Van Hees, C. Vandewiele, E. Peeters, J. Grauwen, F. Boon, *Septentrio Satellite Navigation, Belgium* ----- 1074

Standardized GPS Simulation Scenarios for SPS Receiver Testing
C. Hay, *Spirent Federal Systems*----- 1080

A Simple Multipath Delay Estimator Based on Alternating Projection Algorithm
H. Saarnisaari, V. Tapio, *Centre for Wireless Communications, Finland* ----- 1086

Can Code Redundancy be Used to Improve GNSS Receiver Acquisition Sensitivity?
S. Turunen, *Nokia Corporation, Finland*----- 1094

Impact of the Acquisition Searching Strategy on the Detection and False Alarm Probabilities in a CDMA Receiver
D. Borio, *Politecnico di Torino, Italy*; L. Camoriano, *Istituto Superiore Mario Boella, Italy*;
L. Lo Presti, *Politecnico di Torino, Italy*----- 1100

Open GNSS Receiver Platform
P.J. Mumford, K. Parkinson, A.G. Dempster, *University of New South Wales, Australia* ----- 1108

Development of Software GPS+ Receiver Testbed

P.K. Sagiraju, A. Panchul, D. Bhupathiraju, G.V.S. Raju, D. Akopian, *University of Texas at San Antonio*----- 1114

A Novel Approach in the Detection and Characterisation of CW Interference of GPS Signal Using the Receiver Estimation of C/No

A.T. Balaei, A.G.Dempster, J. Barnes, *University of New South Wales, Australia*----- 1120

Session D6: The Future of Aerospace: Progress, Safety & Efficiency

Prior Probability Model Development to Support System Safety Verification in the Presence of Anomalies

S. Pullen, J. Rife, P. Enge, *Stanford University* ----- 1127

GNSS Real Performance Monitoring and CNS/ATM Implementation

K. Van Dyke, J. Parmet, C. Dufresne, A. Hansen, *DOT/RITA/Volpe Center*; R. Cole, J. Campbell, J. She, Y. Bian, R. Loh, *Innovative Solutions International, Inc.* ----- 1137

Velocity and Acceleration From Unaided Carrier-Phase

J.L. Farrell, *VIGIL, Inc.* ----- 1145

Safety Requirements for Unmanned Aerial Vehicles (UAV) in Future Civil Airspace

R. Loh, Y. Bian, T. Roe, *Innovative Solutions International* ----- 1151

Professional Publishing Trends of Recent GPS Doctoral Students

L.A. Mallette, *Pepperdine University*----- 1164
