

APPROVED BY:

SATELLITE DIVISION EXECUTIVE COMMITTEE MEETING

**January 21, 1998
Long Beach, California**

Motion: When evaluating the request for moneys by other organizations it is agreed that the following principals be followed:

- 1) stay away from special interests;
- 2) start with a memorandum of agreement that outlines the process to be followed and each group's perspective responsibilities before any moneys are issued;
- 3) recognize that because the ION is a volunteer organization it is desirable that the support of compensated students be obtained; and
- 4) the agreement should be a "win/win" situation with both organizations profiting in some manner.

Motion made by Gaylord Green, seconded by Phil Ward and passed by the Committee.
